Data Required for NYSSPE PEC PROJECT OF THE YEAR AWARD:

Must be received by March 9, 2019

1. Name of NYSSPE chapter or Nominating Person / Organization;
2. Name, address, daytime phone number, email, and signature of chapter/person/organization representative;
3. Name of project, location & completion date;
4. Name and title of project representative responsible for project, indicating if the representative is a P.E. This person will serve as a point of contact for questions regarding the nominated project. Also include project representative company name, address, direct daytime and mobile phone numbers, and email;
5. Project design firm. Include name and title of representative, address, contact phone number(s), and email. For any subconsultant/collaborating design firm(s), please provide the same info;
6. For public relations purposes, names and addresses of two or more local newspapers and any other publications you would like NYSSPE to notify;
7. Include a one-page statement written for the general public stating why the nomination is an outstanding engineering achievement; and
8. Attach the following entry requirements:
 - a. A narrative, not to exceed 20 pages, describing the overall engineering requirements of the project, type of construction, cost, and any other pertinent engineering data. Be concise, yet thorough;
 - b. A minimum of five photographs, illustrations, drawings, charts, or diagrams suitable for publication for illustrative purposes, and any pertinent published articles as supplemental background material. Each entry shall be limited to ten pages of such supporting materials. Additional photographs of winners will be required for press purposes.

Nominations are required by email (only), in letter size PDF format, not to exceed 20MB. Elaborateness of entry is not a factor in judging.

Submit nominations to: rachel@nysspe.org; with a copy to nysspe.pec@gmail.com.

The NYSSPE PEC Interest Group serves as the judging panel. They evaluate the projects on contributions to human, environmental, or social needs, originality, innovation, applications of engineering principles, and economic impact. The criteria are evaluated as follows:

Application of engineering principles	25 points
Originality/innovation	25 points
Complexity	20 points
Social significance	15 points
Economic impact	<u>15 points</u>
Total	100 points
